Unico è il sistema per porte – ideato da Dnd – che riduce al minimo l'impatto visivo della rosetta sulla maniglia, valorizzandone così il design: una soluzione tecnica ed estetica ideale per gli ambienti contemporanei.

Grazie al suo piccolo volume, risulta poco visibile: misura solo 30 mm di diametro e 2 mm di spessore. Il sistema, proposto in forma rotonda, è facile da installare e prevede la realizzazione di un foro da 22 mm sulla porta.

DK VIS 9 mm

Finestra / Window

Il DK VIS nasce dall'esigenza di ottenere un sistema esteticamente combinato con il sistema VIS per porta. Le componenti tecniche restano così più discrete e lasciano pieno spazio al design della maniglia. Un meccanismo facile e veloce da montare, senza la necessità di lavorazioni sul serramento.

DK VIS is the result of the need for aesthetic coordination with the VIS system for doors. The technical components remain more discreet to offer greater freedom in the design of the handle. The mechanism is easy and quick to assemble.

DK VIS TS 9 mm

Il DK anti intrusione con pulsante di sicurezza.

Sempre in 9 mm, sempre senza lavorazioni. Studiato appositamente per evitare che, forando il serramento dall'esterno, sia possibile azionare il meccanismo. TSDK non richiede lavorazioni e può essere installato anche in sostituzione a modelli precedenti. Inoltre è configurabile con tutti i modelli a catalogo.

The DK anti-intrusion model with security latch.

Still with a thickness of 9 mm, without the need for complicated installation operations. Specially designed to avoid the possibility of opening by drilling from the outside. TSDK does not require machining and can also be installed in place of previous models. It can also be coordinated with all the models in the catalogue.

Park Associati

Fondato a Milano nel 2000 da Filippo Pagliani e Michele Rossi, lo studio si occupa di progettazione architettonica, urbanistica, interior e product design.

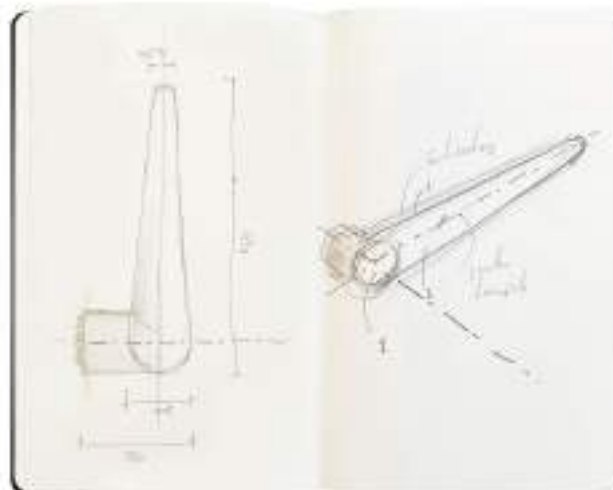

L'approccio di Park Associati all'architettura è analitico, pragmatico e calibrato, forte della tradizione ma capace di generare nuovi codici linguistici grazie a un processo che combina ascolto, intuizione e sperimentazione. L'intuizione porta qualità e valore all'intervento progettuale.

La sperimentazione è alla base del pensiero di Park Associati e prende forma continuativa nel laboratorio Park Plus, una divisione interna dedicata allo studio di tecnologie, materiali e processi.

Park Associati's approach to architecture is analytical, pragmatic and tailored, strong in tradition but capable of generating new linguistic codes through a process that combines listening, intuition and experimentation. Intuition brings quality and value to projects.

Experimentation is at the core of Park Associati's thinking and takes shape continuously in the Park Plus laboratory, an internal unit dedicated to the study of technologies, materials and processes.

Elena Salmistraro

Product designer ed artista, vive e lavora a Milano. Si laurea in industrial design al Politecnico di Milano e nel 2009 fonda il proprio studio che si occupa di architettura e design, collaborando come product designer e illustratrice con molte aziende dell'industria creativa. È interessata allo sviluppo di un lavoro che si collochi a cavallo tra illustrazione, design e arti visive, mediante il quale intende definire un personale codice comunicativo. Tra le priorità delle sue creazioni, spiccano l'attenzione al dettaglio e la ricerca armonica delle forme, inseguite nell'antropomorfismo e nel primitivismo. Un eccesso di simboli grafici offre all'oggetto un'immagine stereoscopica trasportandolo in un territorio sospeso tra fantasia e realtà.

Product designer and artist, she lives and works in Milan. She graduated in industrial design at the Politecnico di Milano and in 2009 founded her studio that works in architecture and design, collaborating as a product designer and illustrator with many companies in the creative industry. She is interested in developing work that combines illustration, design and visual arts, through which she intends to define a personal code of communication. Among the priorities of her creations, emerge attention to detail and the harmonious search for forms pursued in anthropomorphism and primitivism. An excess of graphic symbols gives the object a stereoscopic image, transporting it into a territory suspended between fantasy and reality.

Colori vivaci e segni primitivi per una maniglia che rimanda al variopinto mondo animale. Un metamorfismo e una leggerezza intrinseca che sono proprie del mondo delle farfalle e diventano tratto distintivo di una maniglia funzionale ma sempre pronta a librarsi in volo.

Vibrant colours and primitive signs come together in a handle that reflects the world of animals. It captures the essence of metamorphosis and inherent lightness, reminiscent of butterflies, becoming the distinctive feature of a functional handle that is always ready to take flight.

Come un filo bidimensionale che arriva dai bordi della porta, disegna la maniglia e poi continua il suo viaggio, ora verso l'altro lato, ora verso l'alto, ora nell'altra direzione.

Like a two-dimensional line that arrives from the edges of the door and draws the handle before continuing on its way, towards the other side, upward, in the opposite direction.

Sottili scanalature per l'impugnatura, in omaggio allo stile ionico; e un modellato morbido ma rigoroso per lo stelo: una maniglia che guarda agli stili della storia, in equilibrio tra antica Grecia e Rinascimento.

Subtle grooves in the handle, redolent of the Ionic style, along with a soft yet rigorous shape for the stem: a handle that draws upon styles from throughout history, carefully balanced between Ancient Greece and the Renaissance.

Una maniglia dal design nitido, pulito ed essenziale trova la forma di un volume rettangolare stonato. La rosetta è contenuta nella proiezione della leva.

A handle with a sharp, clean and essential design finds its shape in a rounded rectangular volume. The escutcheon is contained within the projection of the lever.

Nato e cresciuto in Francia, a Versailles, ha studiato design industriale a Lione e Parigi. Vive a Milano, dove dal 2014 ha sede il suo studio di progettazione e dove insegna presso Domus Academy e Naba.

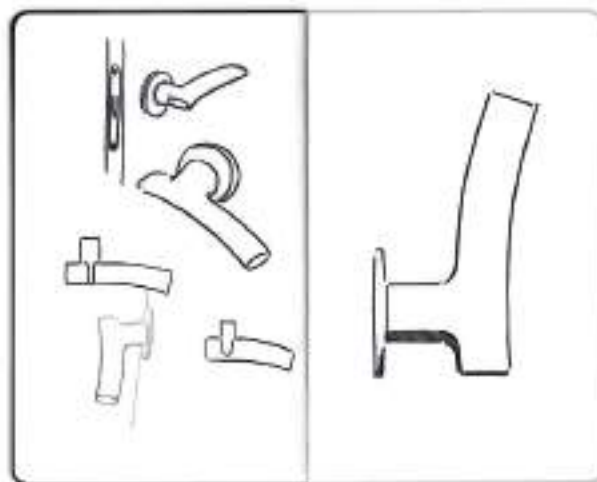

Collabora con aziende rinomate quali Pianca, Lexon, Infiniti Design e Plust e al contempo sviluppa un suo percorso artigianale, con processi e risultati che esplorano materiali e tecniche di lavorazione – come per la serie di maschere Order.

Born and raised in Versailles, France, he studied industrial design in Lyon and Paris. He now lives in Milan, where he established his design firm in 2014 and where he teaches at Domus Academy and Naba.

He collaborates with renowned companies such as Pianca, Lexon, Infiniti Design and Plust, whilst at the same time following his own path as a craftsman, with processes and results that are explorations of materials and techniques, as can be seen from Order, his series of masks.

He won the Infiniti Design award in 2014 and the Young&Design award in 2017, before garnering the Good Design Award in 2018.

Come a ricordare l'elegante e slanciato profilo di una katana. Curve morbide e in tangenza caratterizzano questa originale maniglia dall'estetica e dal nome, di ispirazione giapponese.

Delicately reminiscent of the elegant, slender profile of a katana. Soft, tangential curves characterise this original handle with a Japanese-inspired name and aesthetic.

Una costruzione formale palindroma: il profilo della vista superiore è identico a quello della vista frontale, ribaltato di 180 gradi. Una forma elegante ed essenziale, un volume mutevole che suggerisce all'utente la presa con il suo profilo frontale.

A palindromic structural form: the profile in the view from above is identical to that of the frontal view, but reversed by 180 degrees. An elegant and essential form, a mutable volume that suggests the proper grip with its frontal profile.

La maniglia come fatto scultoreo, dove la luce evidenzia morbidezze e taglia i volumi in modo netto per restituirci l'idea stessa di un concetto plastico fuori dal tempo.
